ICON 125

GREAT SEATING AND POSITIONAL COMFORT

Comfort wheelchairs, or “multifunctional wheelchairs” as they are called, have to meet high requirements in order to meet the needs of users and caregivers. ICON 125 provide great seating and positional comfort as well as a lot of inbuilt adjustment capabilities to ensure a precise fit. Our modular ICON mobility system makes it possible to exchange and combine many components of our comfort wheelchairs ICON 120 (made of steel) and 125 (made of aluminium) with wheelchairs from our ICON 10-40 range.

FEATURES AT A GLANCE

- Hip widths can be adjusted with the arm rests and side panel pads
- The laminated seat and back cushions provide good postural control and pressure distribution over bony prominence with good lateral support to prevent the user from drifting sideways
- The back frame is angle, depth and height adjustable to fit all kinds of backs
- The head/neck support has 11,5 cm of medio-lateral slide adjustment as well as height, angle and depth adjustment
- The ICON Mobility System allows infinite adjustment of the seat depth
